

Louisiana Public Higher Education Business Articulation Matrix

The purpose of this matrix is to list business courses transferable to all institutions. An absence of a course does not necessarily mean non-transferability. There are numerous agreements which exist between and among institutions throughout the state. A student should contact the business unit at the institution to which he or she intends to transfer to inquire about: 1) the potential transferability of the course; 2) whether the course will count in his or her major (i.e. - typically, a letter grade of "C" or better is required for degree credit); 3) any other articulation agreements that may be in existence between schools; and 4) the requirements for business accreditation, which may preclude some courses from being acceptable.

Endnotes' and Asterisks' Legend:

- a. An endnote beside a "crosswalk course" in column 1 (e.g. Business Law I [1]) alerts students to specific information about that course.
- b. An endnote beside an institution's course generally means that the course may not be accepted as an equivalent course by one other institution. Information relative to that course is detailed in the corresponding endnote.
- c. An asterisk (*) beside an institution's course in the Matrix means that two or more institutions do not accept the course as an equivalent course. A student should contact the business unit at the institution to which he or she intends to transfer to inquire about the potential transferability of the course and to determine whether the course will count in his or her major.
- d. A double asterisk (**) beside a "crosswalk course" in column 1 [e.g. Business Communication (**)] signifies that courses in this row are upper division courses at some institutions and lower division courses at other institutions. Typically, courses taken at two-year institutions and 100/1000 and 200/2000 level courses taken at four-year institutions will **not** transfer as upper division. Therefore, students are urged to contact the business unit at the institution to which they intend to transfer for details.

Louisiana Public Higher Education Business Articulation Matrix

Courses in this Matrix have been evaluated by institutions listed in the Matrix. UNLESS OTHERWISE NOTED, ALL COURSES in a given row of this matrix are equivalent to each other and will be accepted for credit. At some institutions a course MAY OR MAY NOT BE ACCEPTED as equivalent to or substitution for the receiving institution's course. For a Course accepted for transfer credit, the receiving institution may require documentation that the course was taught by faculty with the appropriate qualifications, especially courses from institutions which are neither accredited nor candidates for accreditation by the Commission on Colleges of the Southern Association of Colleges and Schools (COC-SACS). All institutions listed in the Matrix are currently accredited by COC-SACS with the exception of the following new and emerging community colleges: LDCC and SLCC. Also, some requirements for AACSB accreditation may preclude some courses from being acceptable at all institutions.
